**Other:** Dubai (United Arab Emirates)

## ABOUT ME

Full Stack Developer with 5+ years of professional experience designing, developing, and maintaining scalable applications. Skilled in PHP (Laravel), with hands-on expertise in JavaScript (Next.js), AWS cloud infrastructure, Python, Java and DevOps practices. Strong track record of delivering impactful solutions, mentoring peers, and driving performance improvements. Passionate about building secure, user-focused applications that align with business goals.

## WORK EXPERIENCE

**Ali Bin Abdulaziz Investments LLC** – Dubai, United Arab Emirates

City: Dubai | Country: United Arab Emirates

### Full Stack Developer

[ 14/02/2022 – Current ]

- Boosted operational efficiency by **40%** through building and optimizing **web applications** with Laravel.
- Architected and deployed **AWS cloud infrastructure** (EC2), improving scalability, uptime, and reducing costs.
- Integrated **RESTful APIs, payment gateways, and WebSockets**, improving product functionality, enabling real-time features, and enhancing user experience.
- Strengthened **application security** through IAM policies, input validation, and encryption protocols.
- Streamlined **development and deployment processes** using Git and AWS, accelerating release cycles and enhancing code reliability.
- Mentored junior developers and enforced **best practices** via code reviews, improving overall code quality.

**Imara Software Solutions** – Puttalam, Sri Lanka

City: Puttalam | Country: Sri Lanka

### Software Engineer

[ 10/06/2020 – 10/11/2021 ]

- Delivered **custom software solutions** with Laravel and MySQL, reducing client processing time by **25%**.
- Integrated **payment gateways and third-party APIs**, enhancing customer usability and expanding system functionality.
- Increased system reliability by implementing **testing frameworks**, debugging, and performance optimization.
- Improved database performance by **optimizing queries** and restructuring schema design.
- Led cross-team code reviews, ensuring compliance and scalability.
- Supported embedded system projects with diagnostic tools and optimization.

**Imara Software Solutions** – Puttalam, Sri Lanka

City: Puttalam | Country: Sri Lanka

### Trainee Software Engineer

[ 10/11/2019 – 09/06/2020 ]

- Assisted in developing and testing web applications, gaining hands-on experience with PHP and Laravel.
- Supported embedded system projects with diagnostic tools, improving system efficiency.
- Contributed to process improvements, accelerating project delivery timelines.

## EDUCATION AND TRAINING

---

### BEng (Hons) in Software Engineering

*University of Westminster* [ 10/02/2019 – 10/04/2022 ]

City: London | Country: United Kingdom | Website: <https://www.westminster.ac.uk/>

## SKILLS

---

### Languages & Frameworks

PHP / Laravel / JavaScript / Next.js / Java languages / CodeIgniter / Python language

### Frontend

HTML5, CSS3, Tailwind CSS, JQuery / Bootstrap

### Databases

MySQL

### DevOps & Tools

AWS / Git (GitHub, GitLab, Bitbucket)

## LANGUAGE SKILLS

---

**Mother tongue(s):** Tamil

**Other language(s):** English | Sinhala

## PROJECTS

---

### Hompper | Property Listing Platform

Laravel, RESTful APIs, Dashboard Development

- Built a **real estate listing website and dashboard** in Laravel with advanced property search and filters.
- Developed **RESTful APIs** to support mobile app integration and third-party listings.
- Streamlined data management, enabling **faster property onboarding** for agents and companies.
